IMPERIAL TABLE No. XI.

Birth-place.

Birth-places in this table are classified as follows :—

A.—DISTRICTS WITHIN THE PROVINCE.

B.—
- B-(1).—DISTRICTS AND PROVINCES OF INDIA CONTIGUOUS TO THE PROVINCE.
- B-(2).—OTHER PROVINCES OR STATES IN INDIA.

C.—ASIATIC COUNTRIES BEYOND INDIA.

D.—COUNTRIES BEYOND ASIA.

E.—AT SEA.

F.—COUNTRIES UNSPECIFIED.

The total population for which this return has been made is 7,608,552 including the population of the synchronous census tract of the Shan States, which amounts to 2,992. No return of birth-place was attempted in the excluded tracts. Owing to the destruction of the census schedule books in Uyu township, Upper Chindwin district, and Kawlin township, Katha district, this return cannot be made for them. The population of these tracts is 116,493. The excluded tracts of the Shan States were also exempted from making this return.

It was found impossible to separate the return of those who gave the Shan States as their birth-place into census and excluded tracts and, accordingly, no distinction could be made in column 1, "District, province or State of birth;" but, in the columns 113, 114, 115 in which the birth-places of those enumerated in the synchronous census tract in these States is given, the return as stated above could only be given for 2,992 persons.

In reading this table, if we take the entries in the horizontal lines, the return gives the actual number born in the places mentioned in column 1 who were enumerated in the various districts of the province. If the columns be read vertically, they give the total population of each district in Burma distributed amongst the places mentioned in column 1. The total of the population then born in a district sometimes exceeds and sometimes, though this is rare in Burma, falls below the total population enumerated in that district. This means that the district has in the first case received fewer persons and in the latter received more persons in exchange with other places.

IMPERIAL TABLE No. XVI.

Castes, Tribes, and Races by Nationality or Traditional Occupation.

This table does not embrace the population of the excluded tracts or of those townships, Uyu and Kawlin, where the census schedule books were burnt by rebels. The population residing in the synchronous census tract in the Shan States has been included. Accordingly the returns embrace 7,608,552 persons out of the total population of Burma and the Shan States.

The classification is based on the Imperial Returns of India. The Hindu castes as being most numerous in India are first taken in detail, caste by caste, arranged according to their traditional occupation in five classes, A, B, C, D, and E, subdivided into 46 groups. All the different races of Burma, the Mahomedan tribes, the mixed races, various European nationalities, the Eurasians and Christian converts are shown under Class F, Groups 48, 49, 50, 51 and 52. Those whose return of nationality was incomplete have been grouped under Class G.

IMPERIAL TABLE No. XVII-A.

Occupations by Age (Provincial Summary).

The occupations in this table have been classified as follows :—

CLASS A.—ADMINISTRATION, DEFENCE, AND FOREIGN AND FEUDATORY STATE SERVICE.

CLASS B.—LIVE-STOCK AND AGRICULTURE.

CLASS C.—PERSONAL AND HOUSEHOLD SERVICES.

CLASS D.—PREPARATION AND SUPPLY OF MATERIAL SUBSTANCES.

CLASS E.—COMMERCE, TRANSPORT, AND STORAGE.

CLASS F.—PROFESSIONS.

CLASS G.—INDEFINITE AND INDEPENDENT.

These seven classes are divided into 24 orders, and the orders are subdivided into 77 groups, which are composed of 478 items or headings. Under these 478 headings all the various occupations have been arranged. Those who did not return their occupations have been shown under the heading 479.

The Government of India decided that no distinction should be made in this table between those working at an occupation and those dependent on the persons who work at the occupations. The returns of age and sex, however, will be found to be surer guide than a separate return of dependents on the various occupations. Such a return would have rendered these tables, which are sufficiently copious, completely unwieldy.

The total population for which this return has been made is 7,608,552, including the population of the Shan States synchronous census tract, which amounts to 2,092. No return of the occupation was attempted in the excluded tracts and owing to the destruction of the census schedule books in Uyu township, Upper Chindwin district, and Kawlin township, Katha district, this return cannot be made for them. The excluded tracts of the Shan States have also been exempted from making this return.

IMPERIAL TABLE No. XVII-B.

Occupations (Provincial Distribution).

This table gives in detail district by district the returns contained for the province in Imperial Table No. XVII-A. It is based on the same classification except that the distribution by age periods has been abandoned as it would have rendered this table far too unwieldy. The distribution by sex is maintained.

SUPPLEMENTARY TABLE A-I.

Christians by Sects.

In these returns of Christians by sect and race, Supplementary Tables A-1 and A-2, the races are classed into (1) Foreign, *i.e.*, those born outside India and those of pure European parentage born in India; (2) Eurasian denoting those of mixed blood; and (3) Native including all those belonging to races inhabiting or domiciled in India.

These returns agree with the return of races in Table No. XVI. In Mandalay, however, 772 persons belonging to the military, 735 of whom are males and 37 females, returned themselves as Christians only, and did not give their race and nationality; hence they were shown as Christians "Not returned," in Imperial Table No. XVI. They are, however, returned as Foreign in this table, as it is quite clear that they are neither Eurasian nor Native.

SUPPLEMENTARY TABLE A-2.

Christians by Races.

In these returns of Christians by sect and race, Supplementary Tables A-1 and A-2, the races are classed into (1) Foreign, *i.e.*, those born outside India and those of pure European parentage born in India; (2) Eurasian denoting those of mixed blood; and (3) Native including all those belonging to races inhabiting or domiciled in India.

These returns agree with the return of races in Table No. XVI. In Mandalay, however, 772 persons belonging to the military, 735 of whom are males and 37 females, returned themselves as Christians only, and did not give their race and nationality; hence they were shown as Christians "Not returned" in Imperial Table No. XVI. They are, however, returned as Foreign in this table, as it is quite clear that they are neither Eurasian nor Native.

SUPPLEMENTARY TABLE B.

Europeans, &c., by Age.

In this table the Europeans, Eurasians, and Armenians, both civil and military, have been shown distributed by sex and age without any distinction of religion. Thus it will be seen that the grand total exceeds the total of Foreign and Eurasian Christians in the Supplementary Tables, Nos. A-1 and A-2, by eight; this is because these eight persons returned their religion as Buddhism.

In Rangoon Town three Eurasians and in Tharrawaddy district one Eurasian returned as Buddhist.

In Mandalay three Europeans and in Upper Chindwin one European returned as Buddhist.

The provincial total in this table embraces the total of the Shan States census synchronous tract.

SUPPLEMENTARY TABLE C.

Literate by Languages known (Provincial Summary).

This table is an expansion of Imperial Tables Nos. IX and XVI, in that it shows the number of those of each caste, tribe, and nationality by sex, religion, and local distribution, and at the same time shows how many of these are literate and how many of those who are literate know English.

This statement is a most laborious one as it is given in such detail. In Burma, especially where 1,992 persons out of every 10,000 of the total population are literate, the return is proportionally heavier than other provinces of India.

The table is arranged on the same lines as Imperial Table No. XVI. The total population for which this return has been prepared is 7,608,552 as the synchronous census tract of the Shan States has been included. No return of education was of course attempted in the excluded tracts.
